Abdoul-Madjid BAWA

Junior Full-Stack Web Developer

HTML5 • CSS3 • JavaScript • React.js

Profile

Student in Computer Science, passionate about building modern web applications. Curious, self-driven, and results-oriented, I continuously strengthen my skills through hands-on full-stack development projects.

Practical Experience

Junior Web Dev | Projects & Hackathons 2025 – Present

- Project Manager on several collaborative web applications.
- Frontend and backend development.
- Use of Git and GitHub for teamwork.
- Design of responsive interfaces.
- Integration of databases and APIs.

Projects

2025 – Present

🏆 CotiPay

React.js • Node.js • PostgreSQL

- Digitization of traditional savings groups (tontines).
- JWT authentication.
- Real-time dashboard.

📍 CivicAlert

Node.js • MySQL • Google Maps API

- Citizen reporting platform.
- Incident geolocation.
- Responsive interface.

Academic Background

Bachelor's Degree in Computer Science

IPNet Institute of Technology

2025 – Present
